Notes:

1. All weights are in grams.
2. The Thin Fire technique produces ultra-thin castings. These castings are fired at a lower temperature. See "Tips for Thin Castings" in the Project Ideas section of the Colour de Verre website, [www.colourdeverre.com/go/projectideas](http://www.colourdeverre.com/go/projectideas)
3. For detailed instructions, visit our website's Project Ideas section, [www.colourdeverre.com/go/projectideas](http://www.colourdeverre.com/go/projectideas).
